

**GETTY IMAGES CONTRIBUTOR RATE CARD
(CONTRIBUTOR AGREEMENT V.5.0)**

This Getty Images Contributor Agreement Rate Card v.5.0 (the “Rate Card”) is issued in connection with the Getty Images Contributor Agreement v.5.0 (the “Contributor Agreement”). Except as specifically defined in this Rate Card, all capitalized terms are defined in your Contributor Agreement.

The charts below sets out the royalty rates that Getty Images pays to Contributors, based on the type of content and the applicable license model through which Accepted Content is licensed. Getty Images will determine the license model for each transaction and it may license Accepted Content to multiple Customers through one or more license models, at any given time.

Except for Royalties on creative subscription products, which are paid in accordance with the subscription schedule below, all other Royalties are calculated based on **License Fees** applying the following rates:

LICENSE MODEL ROYALTY RATE	CONTENT TYPE			
	STILL IMAGES		VIDEO	
	Rights-Managed creative & editorial	Royalty-Free creative & editorial	Rights-Ready creative & editorial	Royalty-Free creative & editorial
	30%	20%	30%	25%

“**License Fees**” as defined in the Contributor Agreement are: (a) the amount charged by Getty Images or a Distributor to each of their Clients (or in the case of certain Distributors, the amount charged by Getty Images to those Distributors for royalty free licenses); (b) the amount recovered from a third party infringer in connection with a Claim (as defined in **Section 1.6 – Right to Control Claims**); or (c) the amount of revenue, including advertising revenue, that is allocated to the Accepted Content pursuant to **Section 1.4 (Aggregated Licensing)**.

Subscription Royalties

For all Accepted Content licensed through a creative subscription, Royalties will be paid based on the initial Customer download of a particular asset, as follows:

Digital and Print On-Demand Products

When Getty Images licenses a third party (an “OD Licensee”) to manufacture, market, sell and distribute physical (including printed) or digital “on demand” retail products (e.g., customized products on a made-to-order basis) containing or embodying Accepted Content (“OD Products”), Getty Images pays royalties based on the net amount it receives. For purposes of calculating royalties payable to you on these sales of OD Products, “License Fees” are the amount Getty Images receives from the OD Licensee, not the consumer sale price for OD Products.

This Rate Card may be amended, from time to time, upon thirty (30) days’ prior written notice.
